

## MEXICO MISSOURI MESSAGE.

## 'NOTHER RAILROAD

That Seems to be the Sure Prospects for Mexico—It's the Santa Fe, and Not the Burlington.

A few days ago the St. Louis Republic contained the following:

The Santa Fe will enter St. Louis in a few months. St. Louis will have another railroad, one of the greatest and largest in America, with more than 11,000 miles of road. The benefits from the acquisition of this prodigious system will be multifold. The Santa Fe is a distinctive railroad, and its territory, which is peculiarly Santa Fe territory, might be designated by the world-wide known and historic trade-mark of the swastika emblem, bearing on the horizontal crosspiece the name of the small, old New Mexican town that lent the big, modern railroad a winning, romantic, poetic title.

The averment that the Santa Fe will enter St. Louis should be modified into the assertion that the Santa Fe already is in St. Louis. While it is true a connecting line must be constructed in Missouri, between Carrollton and Mexico, before the system begins running its own trains into St. Louis over its own tracks, the fact is equally true, altho but little known, that the Santa Fe has been the proprietor of terminal land in St. Louis for three months.

Real estate transfers have not denoted the deed of property to the Atchison, Topeka & Santa Fe Railway, which is the official title of the company. But the land has been bought and is held in trust by agents, who will convey it to the road, probably soon after the first of the year. So, the statement is justified by transaction so substantial as the exchange of money for land that the Santa Fe already is in St. Louis.

The plan of the Santa Fe, and this has been acknowledged by officers of the company, is to build the connecting road between Carrollton and Mexico and operate trains into St. Louis over the Burlington tracks from Mexico.

## A LESSON IN VOTING.

The History Department in McMillan High School got immensely interested in the issues of the present political campaign. They wished to see if they could handle the ballot like other folks. Enough copies of the Message were secured and by cutting out the ballot each student was prepared for the "election." They could vote the entire ballot, county, State and National.

Central Committeemen of the Democratic and Republican parties were elected, also a County Court, who picked the election judges. Then the clerks were chosen.

Here, indeed was a practical lesson in Civil Government. Woman's suffrage was recognized also; everybody voted. The boys and girls differed on men and measures, but all agreed to majority rule.

Forty votes were for Wilson for President and six for Hughes. Gardner received 39 votes for Governor. Reed for Senator received 39 votes; Dickey, six. There were two party prohibition votes and two Socialist votes. Thirty votes were cast for the Third proposed Constitutional amendment (State-wide prohibition) and 8 votes against it. The Land Bank Bill was also largely endorsed.

Some big piles of straw near the Brick Plant caught fire Tuesday afternoon from a passing railroad engine and were destroyed. The straw was used in packing brick. It was a total loss.

## CORN MEAL AS FOOD.

A Pound at Three Cents Equals 41 Cents Worth of Steak and Good Eating.

Des Moines, Iowa, Nov. 7.—And now it's corn meal that is being recommended by the State Food and Dairy Commission as highly desirable food because it is comparatively low in price and high in food value. Corn bread, corn meal mush, a mixture of half corn meal and half flour for bread making, hominy and a breakfast food made of corn are cited as foods which are comparatively cheap.

A pound of corn meal can be bought for three cents, the department says. In food value it contains as much of the food nutrients as 19.2 cents worth of milk, 24 cents worth of cheese, 64 cents worth of eggs, 41.5 cents worth of round steak and ten cents worth of bread.

## DEMOCRATS LOSE MISSOURI.

That's The Gist of The Latest Dispatches—Wilson and Reed Are Safe

ST. LOUIS, November 8.—Fear that the entire Democratic State ticket, with the exception of Senator James A. Reed, who, Republicans admit, "swamped" Walter S. Dickey, his Republican opponent, has been lost caused gloom to settle down over Jefferson City this afternoon.

With seven-eighths of the total vote cast in the State already in, Lamm is leading this afternoon by 1,500 votes. But Gardner is gaining and if his gains continue at the present rate he will be able to nose out by a safe plurality, Democratic leaders predicted late this afternoon.

Wallace Crossley, Democratic nominee for Lieutenant-Governor, is running along close to Gardner.

John P. Gordon, Democratic nominee for State Auditor, is hopelessly beaten.

Gardner ran behind the ticket all over the State. Reed ran along with Wilson or ahead of Wilson, who will carry the State by 12,000.

The Prohibition amendment was "murdered." Definite results on the other amendments are unobtainable this afternoon, but it is believed they were defeated overwhelmingly.

Prohibition carried in Jackson County, despite the large vote cast in Kansas City.

With a net gain of more than 200 votes over that of four years ago, Audrain remains one of the banner Democratic counties in the State as the result of Tuesday's election.

The vote for the "big four", with Black precinct out, follows:  
Wilson 3470, Hughes, 1689.  
Reed, 3479; Dickey, 1669.

Gardner, 3422; Lamm, 1702.  
Clark, 3548; Cole 1616.

Speaker Clark telephoned The Intelligencer Wednesday afternoon he had defeated W. L. Cole, his Republican opponent for Congressman from the Ninth District by 3,000.

Every precinct in Mexico went Democratic except the Fourth Ward, where the Republicans corralled the negro vote and received a plurality of 26.

Audrain County voted against the Prohibition amendment. Twenty-four out of the 25 precincts in the County gave 2064 votes for the amendment and 2461 against. Prohibition was lost in Audrain by nearly 400 votes.

The amendment for pensions for the deserving blind carried by 547 votes. Audrain voters approved the land bank measure by 69 votes.

The measure providing for a Highway Engineer was lost by a vote of 1409 for and 1599 against. It failed of a majority as required.

George Lenoir has a splendid drove of registered Angus cattle, which will be improved with time.

## WILSON RE-ELECTED

President Gaining in Minnesota and California With a Lead Already of 256 to 238.

NEW YORK, November 8.

At 4:15 this afternoon Democratic National Chairman McCormick stated Wilson absolutely and to a certainty is re-elected.

"They cannot beat him by any combination," McCormick said. "He is elected whether he carries Minnesota and California or not, but he will carry both."

Wilson is making steady gains this afternoon in two States, California and Minnesota, either one of which will assure him the victory. These States with New Hampshire, New Mexico and Oregon are regarded as doubtful. Returns gathered by the United Press show Wilson has received 256 electoral votes to Hughes' 238. Democratic managers have regarded the victory as certain and have already turned their attention to celebrating.

The New York World, which last night conceded Hughes' election tonight claims the re-election of Wilson.

This afternoon Senator Hollis of New Hampshire telephoned from Burlington that unofficial but complete returns gave that State to Wilson by 350.
